

Overview:

SV-FBL200 | Papergraphics Satin polyester backlit film 195mic

We like to describe this product as capable of offering excellent results even without backlighting. By day, you've got a visually-appealing substrate with a low-reflective finish for advertising and POS applications, while at night the film comes into its own with highly vivid colours that are sure to grab the attention of pedestrians.

- 100% polyester film with a clear satin finish
- Brilliant light diffusion for vibrant illuminated prints
- Good dimensional stability
- Very fast drying times ideal for busy printing environments
- For indoor use; PVC free; REACH and RoHS compliant

Applications:

Choose this product when you need a versatile film that delivers superb results even without backlighting. With no backlighting, it is a visually-appealing substrate with a low-reflective finish for advertising and POS applications. When backlit at night, the film comes into its own with highly vivid, attention-grabbing colours and definition. Ideal for lightbox displays in retail environments, airports, train stations, cinemas and exhibition halls.

Compatibility:

This product has been tested for use with the following ink technologies;

Latex
Eco-Solvent
Solvent
UV-Curable

Usage and durability:

This product has been designed for lightbox displays in both indoor and outdoor environments.

In case of a multi-panel presentation, it is necessary to check before printing that in regard to the thickness of the film the printer can print with sufficient dimensional accuracy.

Product is wound print side out
