

Overview:

TRU300 | Papergraphics textured premium roll-up film 300mic

Choose this product for a premium film suited to high-volume production of roll-up banners for point-of-sale, product display, advertising and exhibitions. TRU300 has a sophisticated crystal-textured surface that delivers exceptional colour reproduction and stays flat even with heavy ink loads. This product also has a scratch-resistant finish that enhances production efficiency and saves you time and money; it's a print-and-go product—no need to overlaminate.

- Unique PVC surface with a polyester base
- Scratch-resistant textured finish
- Grey-back for no show through
- Enhanced stay-flat characteristics
- No need to over-laminate
- Can accommodate the heaviest of ink loads

Applications:

Specifically designed for high volume premium roll-up banners used in point-of-sale, product displays, advertising and exhibitions.

Compatibility:

This product has been tested for use with the following ink technologies;

Latex
Eco-Solvent
Solvent
UV-Curable

Usage and durability:

Suitable for indoor and outdoor use.

For extra protection in high-traffic areas, if you really need a bulletproof finish, TRU300 can also be laminated with products from within the STICKYBITS range.

Too high drying temperatures can lead to a deformation of the film, ensure the correct drying temperature is set by carrying out a test print

Specifications:

Substrate weight	410 gsm
Substrate thickness	300 mic
Substrate Type	PVC and polyester mix.

Availability:
