

Vision Rijet P75 Hi-Grip.

Technical Data Sheet

Material	Polymeric vinyl film.	
Colour & Finish	Gloss White	
Stock Width	1370mm / 1550mm	
Weight	145gsm $\pm 10\%$	ISO-536
Thickness	110 μ $\pm 10\%$	ISO 534-80
Construction	• Face film: 75 μm calendered polymeric film • Adhesive: high tack clear solvent-based acrylic • Release liner: PE coated kraft paper 140 g/m²	
Applications	Dry and wet application method on clean and degreased substrates. Application temperature above 10°C. The Hi-Grip adhesive has a low cohesion. Therefore, the film will tend to shrink. Ri-Jet P75 Hi-Grip series is not suitable to big surface coverage needing multiple overlapped widths. We recommend leaving 0.5cm unprinted area around the printed poster edge.
